Copper THHN/THWN-2

Application: Copper THHN/THWN-2 conductors are primarily used in conduit and cable trays, when approved, for services, feeders and branch circuits in commercial or industrial applications as specified in the National Electric Code. THHN applications are suitable for use in dry locations only at temperatures not to exceed 90°C. THHN-2 applications are suitable for use in either wet or dry applications, with temperatures that do not exceed 90°C.

Conductors: Copper THHN/THWN-2 conductors are either solid or stranded soft drawn copper, per ASTM.

Insulation: Copper THHN/THWN-2 conductors have heat and moisture resistant colored polyvinyl chloride PVC insulation, with a clear nylon (polyamide) or UL-listed equal jacket, which provides abrasion resistance.

Standards: UL 83, UL62
UL VW-1
Size 1/0 & larger suitable for cable tray use
MTW per UL 1063
ASTM B-1, B-3, B-8
Federal Spec J – C – 30B
