

MC CABLE PRODUCTS

Priority Wire & Cable offers a full line of aluminum armored cables, including copper conductors from 14 AWG to 600 MCM and aluminum conductors from 6 AWG to 750 MCM.

Available Product Lines:

Aluminum Feeder MC Cable

➔ Aluminum Conductor, Aluminum Armor

- 6 AWG to 750 MCM, 3 and 4 conductors 8000 series aluminum with a XHHW-2 or THHN/THWN-2 insulation
- Black PVC jacket also available
- Available in standard lengths or cut to length

Copper Feeder MC Cable

➔ Circuit Sized Solid and Stranded Copper

- 14 AWG to 10 AWG, 2 to 4 conductor with green insulated ground, THHN/THWN insulation
- 120/208V and 277/480V color coding, plus special color coding available
- Packaged in standard coils and reels
- Gray PVC jacket
- In stock for sizes 12 AWG to 10 AWG and available by special order for other sizes

➔ Intermediate Sized Stranded Copper

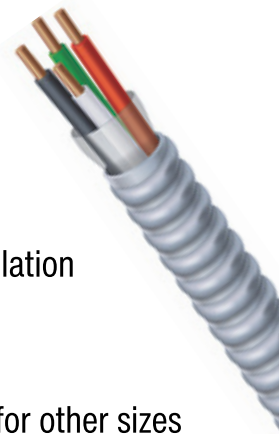

- 8 AWG to 1 AWG, 2 to 4 conductors with green insulated ground, THHN/THWN insulation
- 120/208V and 277/480V color coding, plus special color coding available
- Packaged in standard lengths and cut to length
- Black PVC jacket in stock for sizes 8 AWG to 4 AWG and available by special order for other sizes

➔ Feeder Sized Stranded Copper

- 1/0 AWG to 500 MCM, 3 and 4 conductors with bare ground, XHHW-2 or THHN/THWN-2 insulation
- Color coding is Method 4, black conductors with numbers
- Stocked in bulk reels and can be cut to length

SPECIAL CONSTRUCTIONS AVAILABLE

Please contact us to discuss any special construction(s) that you are looking for.

➔ Healthcare Facility Cable (HCF) Solid and Stranded Copper

- 12 AWG and 10 AWG, 2 to 4 conductors with two green insulated grounds, THHN/THWN insulation
- 120/208V and 277/480V color coding, plus special color coding available

➔ Isolated Ground (IG) Solid Copper

- 12 AWG and 10 AWG, 2 to 4 conductors with two green insulated grounds, THHN/THWN insulation
- 120/208V and 277/480V color coding, plus special color coding available

Voltage and Control MC Cable

➔ MC-VC™ Power with 16/2 Control

- 12 AWG and 10 AWG solid copper THHN/THWN
- Conductors in various color combinations with a jacketed 16/2 control cable with purple and gray conductors
- Stocked in coils and reels

➔ Super Neutral

- 12 AWG or 10 AWG solid copper THHN/THWN with oversize neutral and green insulated ground

➔ Neutral per Phase

- 12 AWG or 10 AWG solid copper THHN/THWN with a neutral for each phase and two green insulated grounds.

➔ Home Run Cable

- 12 AWG or 10 AWG with 6 or 8 solid copper THHN/THWN conductors with a green insulated ground
- Stocked on reels
- Higher conductor count available by special order

➔ Parking Deck Cable

- PVC jacketed MC Cable UL listed for direct burial in earth or concrete
- 12 AWG and 10 AWG with 120/208V and 277/480V color coding, plus special color coding available

Flexible Conduit

- ➔ We also stock RWS, RWA, EFLT, UALT, and NMLT in standard coils and reels
